

TRAINING PROGRAMME 2019

TRAINING MANDATE

ZEP-RE is mandated to facilitate the training of insurance and reinsurance industry personnel in the Sub-Region and across its markets: provide technical assistance to the insurance and reinsurance institutions of the Sub-Region and fostering the development of the insurance and reinsurance industry in the COMESA Sub-Region; promoting the growth of national, sub-regional and regional underwriting and retention capacity; and supporting sub-regional economic development.

The ZEP-RE Academy

The ZEP-RE Academy was established in 2016 with the sole aim of institutionalizing the founding mandate of ZEP-RE (PTA Reinsurance Company) of training of insurance and reinsurance industry personnel in the sub-region which over the years has been carried out through the Training department of ZEP-RE. The Academy has partnered with Insurance Institutes, Colleges of Insurance and other insurance training institutions in the region in order to respond to the needs and requirements of each local market.

Insurance companies transfer between 20% -30% of all their written premiums to reinsurers who are in turn responsible for potentially devastating large claims and catastrophes. This makes the knowledge of reinsurance imperative and mandatory for the success and survival of any insurance organization and industry at large.

The Academy's flagship program is the Proficiency in Short-Term Reinsurance Practice and Claims Management course (PSTRPCM), which was designed to address the skills gap in reinsurance experienced generally in the insurance industry in the region. This is an examinable program which equips the trainees with technical reinsurance knowledge and skills that would enable them carry out reinsurance underwriting and claims tasks competently.
